Subject: RE: Tour of [REDACTED]

OK, if [REDACTED]s going, we may want to hold open spots for our senior managers. We can figure it out next week.

On our end, from the people who have participated in the poll or communicated their interest by this point, it could be 7. [REDACTED] **Ex. 5 Deliberative Process (DP)**

Ex. 5 Deliberative Process (DP)

[REDACTED] yet. I am sure we could re-divide, but let's talk about it next week when Nicole is back from annual leave. If this facility is especially convenient, we could also see if we could perhaps organize two tours on two different dates.

Should we hold an auction? Let me know how many spaces you will need and we can go from there, but it does seem like a good opportunity for one CPSC person, if they are available.

Hi,

So it looks like [REDACTED] will take 10 of us.

Ms. Janjic,

I am sorry for the delay in getting back with you.

To your questions, we can comfortably accommodate up to 10 people on the tour of the facilities.

We do sell our products directly to companies that do turnkey playground installations in the mid-atlantic area. These folks design, engineer, and install products from various manufacturers to deliver a complete playground system to their customers.

Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]

The original website was designed with Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]

Do you have any tentative dates for your visit set up yet?

Best,

A couple of more question, for our planning purposes and to be respectful of your space limitations, I wanted to check with you how many people you would be able/willing to accommodate for the tour? Also, I was wondering if your facilities sell the crumb rubber to playground manufacturers? (I wasn't sure what Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))])

Thank you so much and all the best,
Ksenija

I would budget 2.5 hours for the complete tour.

Afternoons are fine with us.

Best,

Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]

Ok, thank you. The only other thing is how much time we should be planning for. For example, do you think that 2 hours would be enough considering the travel between the facilities, or would 2.5 hours be more appropriate? Also, are afternoons or mornings better for you? We were thinking about early afternoon, such as 1 to 3 or 3:30pm, so as to avoid rush hour traffic both ways. However, does that work well for you and capture the timing of the full recycling operation?

Best,
Ksenija

Ksenija,

If you want to see the entire process from receiving the whole scrap tire to grinding it down into crumb rubber for sports fields and asphalt modifier, you will need to come to Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))] and tour our main processing plant as well as Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]. They are approximately Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))] away from each other.

The process works as follows: whole tires are delivered to our main facility where they are processed into nominal 4" pieces. These pieces are then delivered to Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))] and reduced into rubber mulch. The tailings from that process are used to make the various sizes of crumb rubber.

If you have any other questions, please do not hesitate to contact us.

Best Regards,

Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]

Hi [REDACTED]

I have one more question. I am setting up the doodle poll to lock down the date for our tour, and was looking for information around the location of the facility to share with the staff here. I found on your website that between Maryland, Virginia and Pennsylvania there are several [REDACTED] Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]. I just wanted to ask whether to see the tires being processed into crumb rubber infill for sports turf, we would need to go to [REDACTED] Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))] or another one of the facilities?

Thank you and all the best,
Ksenija
